EXPERIENCE

ElevenX AI

SEP. 2025 – MAY 2026

Full Stack Developer

GR.NOIDA

- Developed **responsive business websites** and web applications using **Next.js**, **React.js**, and modern frontend technologies, delivering intuitive user experiences across multiple industries.
- Collaborated with **UI/UX designers** and backend developers to implement scalable, pixel-perfect interfaces, ensuring **cross-browser compatibility**, responsiveness, and high performance.
- Optimized application performance through **component-based architecture**, reusable code, and frontend best practices, improving maintainability and overall user experience.
- Integrated frontend applications with **REST APIs**, implemented interactive features, and contributed to end-to-end digital solutions that help businesses establish a strong online presence.

Ez Learn

Feb. 2025 – Aug. 2025

Marketing Lead Intern

Delhi

- Led **digital marketing campaigns** across multiple social media platforms, increasing brand visibility and driving user engagement through strategic content planning.
- Collaborated with cross-functional teams to design and execute **marketing strategies**, promotional campaigns, and community outreach initiatives that supported business growth.
- Analyzed **campaign performance metrics** using data-driven insights to optimize content strategy, improve audience reach, and maximize campaign effectiveness.
- Coordinated with designers and content creators to deliver **marketing assets**, maintain consistent brand messaging, and support product launches and promotional events.

PROJECTS

Hostel Desk – Cloud-Based Hostel Management System

- Engineered a **serverless hostel management platform** using **Next.js**, **AWS Lambda**, **API Gateway**, and **DynamoDB**, automating maintenance requests, complaint management, and service tracking.
- Implemented **AWS Cognito**, **SNS**, **S3**, and **Amplify** for secure authentication, real-time notifications, cloud storage, and scalable deployment, delivering a reliable and responsive user experience.

RideShare –Ride Sharing Platform | [Live Site](#)

- Developed a secure **college-exclusive ride-sharing platform** enabling students to post, discover, and book rides using **Next.js** and **Supabase** for seamless real-time data management.
- Built responsive interfaces for **ride listings**, **booking requests**, and **user profiles**, delivering an intuitive user experience with optimized performance across desktop and mobile devices.
